

# THIS SUMMER

## *Give your smile the attention it deserves!*

With the end of the school year in sight and summer vacation just around the corner, it's time to make plans for some long-awaited self-care. While getting in shape for fun in the sun is at the top of most lists, the summer is also a great time to bring out the best in your smile!

A healthy and beautiful smile can make a world of difference to your well-being and outlook. If you've been putting off seeing the dentist because the demands of the school year leave so little time, this summer offers the perfect opportunity to give your smile the attention it deserves.

At the office of Astoria Modern Family Dental, we offer the latest solutions for healthy and beautiful smiles. We value your trust—providing individualized care tailored to your dental needs and cosmetic smile goals while accommodating your busy schedule and budget.
