At Astoria Modern Family Dental, we've made dental care more convenient, comfortable, and stress-free. In today's busy world, it's often hard to find the time to make appointments to maintain the health and appearance of your smile. We understand how hectic daily life can get and offer the latest solutions to provide top-quality care that suits your schedule.

With same-day crowns, there's no need for multiple office visits, messy dental impressions, wearing a temporary crown, or waiting weeks for your dental work to come back from the laboratory. Your new restoration gets designed and customized to the exact specifications of your smile all on the very same day! What's more, there's no compromising on quality. Your new same-day crowns get fabricated from the highest grade of dental ceramics to give you a smile that's naturally beautiful, blends seamlessly with your smile, and will serve your smile well for many years to come.

At the office of Astoria Modern Family Dental, we maintain a position at the forefront of advances in technology and treatment methods to provide our patients with the highest quality care.
